Northern Hornshoe Snowmobile Club Minutes

President Keith Weber called the meeting to order at 6:10 P.M.

Discussed the tractor being down, needs the ECR cooler replaced and it is out of stock. Keith will be talking to the John Deere Rep. on Wednesday.

The tribe graded up to the bridge. Tribe is not in favor of planting trees for a wind break. They want the club to use snow fensing.

We now groom all trails in Lac Du Flambeau, including Booth & Buckskin, and trails on the west end. Matt Stepon will be keeping the snowmobile and drag at his place.

Club trails must be a mile long to get paid for grooming them. The club also needs to put up signs in more places. Volunteers needed to work on this next week. The club also needs to brush trails.

Please continue to sell raffle tickets! The club has many expenses with repairs.

Problems with Apple12 and AWSC site discussed.

George Keech made a motion to adjourn
Donnie Tingwald seconded the motion.
